Cluster C Crypto Project - White Paper

Introduction

Cluster C is a **revolutionary crypto project** aiming to transform the gaming industry through a **unique franchising model**. Our vision is to create standardized, high-end game rooms globally, where gamers can enjoy top-notch gaming experiences and participate in exclusive competitions. By integrating our **native cryptocurrency**, Cluster C tokens, into every aspect of the franchise, we provide **real utility and value** to our token holders.

Vision and Mission

Vision: To become the **leading** global franchise for high-end game rooms, providing exceptional gaming experiences and fostering a vibrant gaming community.

Mission: To standardize game room setups, create a **seamless payment** system using Cluster C tokens, and host premier gaming competitions, driving the adoption of our cryptocurrency.

Market Analysis

The global gaming market is projected to reach **$500 billion** by 2025, with a growing demand for immersive gaming experiences. The rise of esports and competitive gaming further highlights the potential for standardized game rooms that can host local, regional, and international tournaments as well as provide a suitable place for socialization, team formation, and future talent development.

Token Utility

Cluster C tokens will be the **backbone of our ecosystem**, used for:

- Purchasing franchises
- Buying equipment from the franchiser
- Paying for gaming sessions in game rooms
- Participating in gaming competitions
- Purchasing games on our online platform

Franchise Model

Franchise Concept:

Our game rooms will feature **state-of-the-art** computers, ergonomic seating, and **cutting-edge gaming technology.** Each franchise will adhere to **strict quality standards**, ensuring a consistent and **premium** experience for gamers.

Franchise Purchase:

Franchises can **exclusively** be purchased using Cluster C tokens, creating a **direct link** between our cryptocurrency and the expansion of our network. Franchisees will receive detailed guidelines on setting up and running their game rooms, along with **ongoing support** from Cluster C.

Equipment Purchase:

Franchisees **must purchase** all gaming equipment from Cluster C, payable in Cluster C tokens. This ensures **uniformity** in game room quality and **drives demand** for our cryptocurrency.

Online Gaming Platform

In addition to physical game rooms, we will develop an **online gaming** platform, where users can **purchase games** using Cluster C tokens. This platform will **enhance** the **utility** of our cryptocurrency and provide additional revenue streams.

Gaming Competitions

Cluster C will host regular gaming competitions, bringing together top gamers from our franchise network and from all over the world. These events will not only **promote our brand** but also provide **exciting opportunities** for our community to engage and compete.

Roadmap

Phase 0 (Before launch):

- Presale to raise initial funds.
- Marketing and community growth.
- Post-launch marketing strategies.
- Team formation, concept finalization, and legal framework establishment.

Phase 1 (Months 1-4):

- Marketing and community growth.
- Game room design and standardization.
- Establishing strategic partnerships

Phase 2 (Months 5-8):

Phase 3 (Months 9-12):

- Setup of pilot game rooms and commencement of global franchise sales.
- Development and launch of the online gaming platform.
- Organization of gaming competitions and community-building activities.

Tokenomics

The Cluster C token will be built on the **Binance Smart Chain (BSC)**, known for its high transaction speed and low fees. The total supply of Cluster C tokens will be capped at 10 billion, with the distribution as follows:

- 15% for presale (1.500.000.000 CLC)
- 0,88% for presale marketing (88.000.000 CLC)
- 43,4% for public trading (4.340.000.000 CLC)
- 4,17% for team (417.000.000 CLC)
- 16,27% for development (1.627.000.000 CLC)
- 7,57% for marketing and community building (757.000.000 CLC)
- 12,5% for reserve and liquidity (1.250.000.000 CLC)
- 0,21% for staking rewards (21.000.000 CLC)

Presale consists of 3 phases:

- Phase 1 – 500.000.000 CLC released (15 days) for 0.00000089 BNB per 1 CLC (vested for 90 days)
- Phase 2 – 500.000.000 CLC released (15 days) for 0.0000011 BNB per 1 CLC (vested for 120 days)
- Phase 3 – 500.000.000 CLC released (30 days) for 0.0000015 BNB per 1 CLC (vested for 150 days)

The presale utilizes the **burning mechanism** for the unsold tokens, thus at the end of the presale 50% of the unsold allocated tokens **will be burned** and the other 50% will be distributed between the 4 wallets (marketing, team, development, and locked liquidity) **equally.** The **wallet cap during** the presale is 0.5% of the allocated tokens for (7.500.000 CLC) to ensure **no whales** enter the presale.

After launch:

- 4.340.000.000 CLC allocated for circulating supply.
- 1.250.000.000 CLC locked liquidity for 730 days, ensuring **sufficient trading volume**.
- **Wallet cap** of 1% of the current circulating supply, ensuring **no whales.**
- **Segmented release** of circulating supply to ensure the market is not overloaded with tokens and no significant price drops occur.
- **Staking mechanism** with staking **rewards** to ensure price stability in crucial periods.
- **Segmented release** of marketing, team, and development tokens, according to the needs and road map.

Security and Compliance

We **prioritize the security** of our platform and compliance with regulatory standards. Our smart contract underwent **rigorous audits**, and we implemented **robust security** measures to **protect user funds** and data as well as ensure the **stability** and **growth** of the currency.

Conclusion

Cluster C is poised to **revolutionize** the gaming industry by combining the power of **cryptocurrency** with a **global franchising** model. By creating standardized, high-end game rooms and an online gaming platform, we provide **real utility** to our token and foster a vibrant gaming community.
